

The Green Masters Program™ is offered exclusively by the Sustainable Business Council.

## The Green Masters Program® (GMP) simplifies sustainability for organizations

### Measure and Improve

Define, prioritize, measure, and manage your company's performance in sustainability topics that are meaningful to your business.

### Certify

A third – party credential that validates your sustainability program meets or exceeds internationally recognized standards.

### Get Recognized

Earn recognition as you grow your sustainability program, achieving "Green Master" status with a top quartile score.

### Promote

Use the Green Masters logo to share your sustainability story with others.

The GMP is a cost-effective way for organizations to advance their sustainability efforts, integrate ESG actions, and engage with stakeholders. It provides a comprehensive framework for defining, prioritizing, measuring, and managing sustainability action areas, enabling organizations to enhance their sustainability performance and demonstrate their commitment to responsible business practices.

The GMP's virtual platform offers a customizable approach by providing a scalable standard for sustainability performance improvement while wrapping membership around the Program, offering valuable resources, education, and a supportive community. This comprehensive approach allows organizations to enhance their sustainability efforts and make meaningful progress in their sustainability journey.

The Green Masters Program is an officially recognized Certification Mark for your business.

Network with peers to share ideas and experiences

# About

The Sustainable Business Council's mission is to accelerate the integration of sustainable principles and practices in business.

Through membership, we support companies and sustainability professionals to educate, measure, and improve their sustainability outcomes, address environmental, social, and governance actions, and collaborate for shared success. We meet all companies where they are on their journey and assist them towards greater profitability and sustainability integration.
